1234 Gilman Dr, La Jolla, CA

Summary

A passionate, ambitious individual who is driven by their interest in biological research and uses their college curriculum and previous lab experience to collaborate with others. Looking to work for John Doe Lab to gain further experience in a laboratory setting and research, while assisting ongoing experiments.

Skills

Laboratory: PCR, Immunostaining, Confocal Microscopy, Gel Electrophoresis

Technology: Microsoft Suite (Excel, Word, PowerPoint), Google Services (Sheets, Docs, Slides).

Experience

University of California Davis Health | Gong Laboratory

Student Intern (2 Years)

- Maintained a clean working environment by sterilizing lab equipment, including glassware, plasticware and solutions, while also overseeing the disposal hazardous waste.
- Prepared mice for surgical procedures and perfusion by sterilizing tools, administering anesthesia, and cleaning the appropriate surgical sites.
- Assisted neurodegenerative research through experiments that utilized the replication and amplification of DNA.

University of California San Diego | School of Biological Sciences

Student Researcher (1 Year)

- Investigated soil microbiomes and their bacterial composition using the scientific method and executing various experiments.
- Collaborated with peers to conduct and analyze microbial research.
- Supported peers by providing guidance when they were learning micropipetting, equipment handling, and analytical skills.

Education

University of California San Diego

B.S. Molecular and Cell Biology (08/2024 - Present)

Natomas Charter School

High School Diploma (08/2020 - 06/2024)
